## Straw Hats are done with

They still have their uses for charitable purposes, etc., but as seasonable head coverings they are not in it.

That is why we want to draw your attention to our latest importations of 'Benson & Son's' Hats.

Just come in and let us show you what you look like with one of our 'Harrington's' on your head.

That will settle it and you will fire aside the old hat and buy the new.

## Radford & Son

## The Napanee Agricultural Works

Invites Farmers who will visit the Lennox County Fair on Monday and Tuesday next, 19th and 20th September, to see our Display of Implements on the grounds. They will find it in their interest, if in want of any article in our line, to give us a call either here or at our office and warerooms, Dundas st., where we will be pleased to show them goods and quote them prices, and convince them generally that not only will it pay them to patronize home industry, but that the home article is equal, and in some respects, superior to anything now offered in the market.

Just now we wish to call attention to Plows and Spring Tooth Cultivators, of which we have a splendid line. If you will try our 'New Dominion' Steel Beam Single Plow you will be sure to be pleased with it as they do first class work, and are made of the very best material. The 'Monarch' Sulky Plow is yet the Favorite riding Plow in this section. We have received this week a large order for these from a party to whom we sold one at the Kingston Fair, who writes us that it did the work first class. Remember we guarantee all Plows.

Shears and repairs for all Plows in this section always in stock, viz: Dominion, Queen, Wilkison, Walker, Ontario, Clyde, No. 4, Reliance, Stickney, and many others. Give us a call.

## TO THE FARMERS.

We, the undersigned, have entered into a co-partnership under the name and style of

### DOWNEY & VANLUVEN

For the purchase of grain and other produce, we will operate the BIG STONE STOREHOUSE, formerly operated by F. E. Vanluven, which is the largest and most complete grain storehouse in Central Canada, having a storage capacity of over

### 100,000 BUSHEL

Besides being absolutely FIRE PROOF from outside exposure, furnishing undoubted security to farmers wishing to store grain.

We ask the farmers of these counties to favor us with their trade especially the old customers of the Downey Company and F. E. Vanluven. We feel that we can handle your grain and give you complete satisfaction.

It will always be our aim to bring the producer in as close connection as possible with the BEST MARKETS IN THE WORLD.

We extend our sincere thanks to the farmers generally for past favors and we trust by close attention to business and fair dealing to secure your trade in the future.

### EXECUTORS SALE OF LANDS.

The executor of the late A. Shibley desiring to close up the business of the estate now offers for sale the following valuable property: 1500 acres in the vicinity of Bell Rock Township of Portland, 1000 acres of which are excellent farming and pasture lands, fine barns and good dwellings on most of them. The remaining 500 acres are swampy lands and well timbered. Also about 800 acres in the vicinity of Verona and Piccadilly comprising farms and good buildings. Also about 1300 acres in the townships of Loughborough, Stratford, Kennebec, Olden, Clarendon and Miller, valuable for timber, pasture and minerals, many of them having been held by the late Mr. Shibley for their prospective mineral value. Also, the well known homestead, most desirably situated on the Portland road, about 2 miles from Harrow, Ontario, and twelve miles from Kingston. This farm comprises 25 acres and may be sold in two parcels if required. Parcel No. 1, on east side of Portland road, contains 100 acres on which is a fine commodious family residence, barns, driving barn, stables, splendid orchard, etc. Parcel No. 2, on west side of Portland road contains 133 acres on which there are as fine barns and stone house as can be found in the county. Also a fine large orchard. Both these parcels of land are well adapted for farming and gardening purposes and very convenient to the city of Kingston, one of the best markets for all kinds of produce in Ontario. All lots 11 to 17 inclusive on Nelson street. Both these parcels of land are prepared to receive offers for the properties, as they will be disposed of at prices in keeping with the times and on terms to suit purchasers. For further information, etc., apply to **A. SHIBLEY, Esq., York, Ont.** or **ALF. KNIGHT,** Napanee, or to **JAMES DALY, Esq.,** Napanee.

Dated this 5th day of August, 1892.

Milk has been found to possess remarkable healing qualities if applied to wounds in an early stage, and excellent results have been obtained by its use in the dressing of burns. Compresses are soaked in milk and laid on the burn, to be removed night and morning. An extensive burn has in this way been reduced in three days to one-quarter of its original size. Another burn, which had been treated for eight days with olive oil and oxide of zinc, healed rapidly under a milk dressing.

There is a sensation at Sharbot Lake. Of course there is a scandal of some sort, which seems to be caused by charges made by a Miss Annie May Nugent against Mr. Egan who keeps a store in the village. The case was before Messrs. Shibley and W. Robinson the other day.

The Aspell case, the inquest upon which is now going on near Sharbot Lake, in the township of Olden, is a very peculiar one. Michael Aspell, of the township of Olden, was found in his house bruised and dying by a man named Middleton. As the man was living alone, and had no relatives near, very little attention was paid to the suspicious circumstances, and the body was interred. His brother, Edward Aspell, however, has returned from Michigan, and has demanded that an inquest be held. Michael Aspell was known to have had at least \$150 in his possession a day two before he died. After his death only the sum of 15c could be found on the body or about the premises.

On Thursday, at Warren, Nipissing, an interesting ceremony took place, when A. C. Wilson, of Picton, was made the recipient of an address and purse containing \$80 in gold.

In Kingston last week a horse driven by two young ladies from Odessa became frightened at the elephant belonging to Washburn's circus and wheeling round ran across the boardwalk throwing both young ladies out. One of the young ladies was badly cut.

Belleville bakers ought to have a snug little sum laid away for a rainy day. They have been charging 12 cents per loaf for bread until the last week or two, when they reduced it to ten cents.—News Argus.

Mr. P. Weighill, of Tamworth, has been engaged as head clerk in the dry goods department of Jas Milne & Son, Stirling.

"An up country exchange breaks forth in the following gloria in excelsis: There is more joy in a printing office over one sinner who pays in advance and abuses the editor on every occasion than over ninety and nine who borrow the paper and sing its praises without contributing a cent to keep it out of the poor house. Blessed are the meek for they shall inherit the earth, and obtain material for fencing it on time, without security."

Nearly everywhere through the county the farmers are disappointed at the result of their threshing. Too much straw and too little grain.

The Midland Central Fair at Kingston was a rank failure although the Kingston papers lauded it to the skies and beguiled outsiders to town to see nothing but empty stalls and an empty palace.

Thos. Rooney, of Plymouth, Pa., having lost all his money and property on the result of the Sullivan Corbett fight, committed suicide by taking poison.

Moses Stephens, of Seymour, met with an accident on Tuesday last. While he was driving a team that was pulling heavily at a load in the field, the trace broke and the whiffletree suddenly flew back and struck him on the leg with such force as to cause him to faint away.

Samuel Spears, Ernestown, took first prize at the Kingston exhibition on his Percheron stallion. Washburn of the circus offered him \$500 for the horse.

COUNCIL MEETING.

COUNCIL CHAMBER, Sept. 12th, 1892.

Present.—Mayor in the chair, Couns. Meng, Warner, Joy, Carson, Lowry, McAlister, Stevens and Leonard.

On motion the regular order of business was suspended, and the tenders received for the piers of the new swing bridge were read as follows:

Geo. Newlands—Masonry, cubic yard, \$15; timber for substructure, \$24.50 per thousand feet; oak timber for platform \$50 per thousand feet; stone filling, \$1 per cubic yard; concrete, if any, \$2.25 per cubic yard; wrought iron bolts, 3¢ cents per lb.; excavating for piers, 50 cents per cubic yard.

Geo. A. Cliff—Masonry, per cubic yard, \$14.95; timber for substructure, \$26 per thousand; oak timber, \$50 per thousand; stone filling, \$1 yard; concrete, \$2.25; iron, 3¢ cents; excavating, 50 cents per yard.

A. R. Davis—Masonry, cubic yard, \$10; timber for substructure, \$30 per thousand; oak timber, \$55 per thousand; stone filling, \$1.50 per yard; concrete, \$7.50; iron, 5 cents per lb.; excavating, 75 cents per yard.

An application was made to the council for a licence to peddle fruit by a dealer from Kingston. The by-law imposes \$40 for such a licence, and the party withdrew to consider the expediency of making such a payment.

The Finance Committee reported against remission of taxes for the fruit evaporating business. The application for such remission was therefore withdrawn.

Mr. Meng called attention to the butcher licenses, saying business was being carried on by unlicensed parties. Mr. Joy said he would attend to the matter.

The police committee reported in favour of only one policeman, that \$350 salary be paid, and two suits of clothes. Also that the scales and market tolls be sold so as to relieve the police of this duty, and recommended that Jeremiah Storms be appointed Chief, to hold office at the pleasure of the council. The report was taken up clause by clause, and adopted.

Council went into committee of the whole on Mr. Warner's by-law to hold the Municipal nominations in the town hall on the last Monday in December, at 7.30 p.m.

The by-law was read a second time.

On motion the by-law was read a third time, signed, sealed, and finally passed.

A by-law appointing J. Storms as Chief of Police was passed. Salary \$350 per annum, payable quarterly, and two suits of clothes.

Moved by McAlister and Lowry that an advertisement be inserted in the two town papers asking for tenders for the purchase of the market fees and hay scales.

Mr. Symington said he understood it was mooted to pass a by-law for the weighing of coal, and if so this should be done before the fees were sold, as it would make some considerable difference in the value.

Couns. Stevens and Meng moved that the scales and fees be sold by auction, instead of by tender on the 1st of October next, at 11 o'clock a.m., in the town hall. Carried.

Mr. Symington said this would suit his idea, as the council could pass a by-law for the weighing of coal before that time if it saw fit.

Mr. Perry reported as to the tenders, and reckoning quantities he thought would be wanted. Mr. Davis' tender was the lowest by some \$600, and would amount to about \$3,593 and the whole cost would then be \$6,468.

Moved by Carson and Meng that the tender of A. R. Davis be accepted, provided the bonds offered prove satisfactory to the Finance Committee, and that the bonds be executed on Tuesday, Sept. 13th. Carried.

—Capt. S. Landers, late general secretary to Staff-Capt. Southall, Kingston, has been sent to Picton to take charge. He is well liked. The captain is a converted Jew.

—Captain Michael Sigworth and his son were drowned on Thursday of last week off Cardigan, Prince Edward Island. The son was knocked from their fishing boat by a flying boom, the sea running high, and the father vainly attempted to rescue him.

—John Cullen, a well to do farmer was killed one day last week. His horses became frightened, ran away and dragged the unfortunate man some distance. When rescued he was horribly disfigured, and died in a few hours. He leaves a wife and one daughter.

—Those large cocoons which are found on many trees along the streets mean destruction next year to many valuable trees.

—The Deseronto Tribune thinks that there should be game and fishery inspectors at Deseronto. It says the attention of the Dominion and Ontario governments should be directed to this fact.

—Mr. Richard Rayburn has been gazetted Collector of Customs for the port of Deseronto.

—The Central Ontario have surveyed the proposed extension of their line to the dock at Picton. The line will also be extended along West Lake to the Sandbanks.

—The Ministers of Education recommends that the discovery of America by Columbus should be observed in the public schools on October 12th.

—Brookville is now known as the "Patent Medicine Town," there being no less than five different companies having their head quarters there.

—It is not generally known, but very well worth remembering, that the shine can be easily and quickly removed from the shoulders and elbows of one's gowns by a gentle friction with emery paper. Don't rub too hard, just enough to raise a little nap, and then, in the case of cashmere or other smooth goods, go over the place a few times with a warm silk handkerchief.

—The evenings are getting rather cold for our young people to promenade much on the streets. They will soon be obliged to remain indoors.

You may be satisfied with the brands of tobaccos you have been using for years. Grant it, that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHICK PLUG, or cut smoking tobacco, and we believe you will be better satisfied. In any case a trial won't hurt you. Don't delay upon the order of buying, but buy at once. 371f

#### A Quiet Wedding.

P. J. Dwyer, Deseronto and Miss Joe Garrett, daughter of William Garrett, Centreville, were quietly married on Monday at the R. C. Church, Centreville. Rev. Father Hartigan performed the ceremony. M. C. Murphy, Deseronto, assisted the groom, while Miss Belle Garrett, sister of the bride, was bridesmaid. Mr. Dwyer has for some years resided in Deseronto and occupies a responsible position with the Rathbun company.

#### TUESDAY EVENING.

The Finance Committee reported with reference to the sureties of A. R. Davis, saying that only one surety was at present proposed, and Mr. Davis asked until Thursday to find another. The report was received and adopted.

Mr. Davis was heard with reference to his tender, and said he would be prepared to give security to the extent of \$2000 by noon on Thursday.

Dr. Leonard moved that Mr. Davis be given the time asked for.

Coun. Warner moved adjournment of the council until Wednesday morning at 10 o'clock. Seconded by Coun. Stevens. Carried.

#### WEDNESDAY MORNING.

At the meeting of council held this morning, the tender of A. R. Davis, for the piers of the swing bridge was accepted. Messrs. T. G. Davis and Thos. Jamieson being the sureties.

—A Western editor met a well educated farmer recently and said to him that he would like to have something from his pen. The farmer sent him a pig and charged \$9.75 for it.

—There is only one thing worse than ignorance, and that is conceit. Of all intractable fools, an overwise man is the worst. You may cause idiots to philosophize—you may coax donkeys to forego thistles—but don't ever think of driving common-sense into the head of a conceited person.

—O. M. Rexford, Watertown, one of Jefferson county's fancy butter-makers, has been trying insect powder to keep the flies off his cows. He says that he has cleaned out the flies and his cows have responded to the relief. He has fifteen cows and from them he is making ten pounds of butter per week more than when flies were tormenting them, an increase in the flow of milk from these fifteen cows of over 200 pounds per week, and this without extra feeding. He says that he does not know positively whether the flies are killed or not, but does know they have not returned. One pound of the powder he uses will cover twenty cows and dust the stable about eight times and costs 30c per pound. These eight applications will clean out the flies in any ordinary dairy.

—Bateman Clark, of Picton, is attempting to raise peanuts and anticipates success.

—The hop crop in Prince Edward county is reported abundant and the sample choice.

—The Chamby hotel, an old ramshackle building in Montreal, was destroyed by fire Monday morning. Three inmates of the hotel were burned to death, and about half a dozen were seriously injured by jumping from the windows of the building.

The aroma of the tobacco leaf is so completely conserved in the manufacture of "Myrtle Navy," that age has no effect in diminishing it; even after the plug has been kept for years it gives out its full flavor under the combustion in the pipe, mellowed in tone by its age and making the most exquisite smoke which tobacco can be made to give. Age, too, hardens the structure of the plug and gives to the tobacco, when cut, that almost granular appearance in which all connoisseurs delight.

#### Piles! Piles! Itching Piles.

SCALDS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. #### Riding to Save a Life.

A Georgia newspaper gave an account of the herpism of John Potter, a ten year old boy who rode a horse twelve miles to Macon for the purpose of calling a physician to attend his mother, who was believed to be dying with colic. The doctor could not be found, but a kind druggist gave the lad a bottle of medicine and ordered him to hurry home. The boy had rode home, delivered the medicine, and then fainted from nervous exhaustion. The medicine cured the sick woman, and the boy is well. It is only necessary to say that the precious medicine was FRANK DAVIS' PAIN KILLER, which never fails to cure disorders of the stomach. 25c old popular price, for New Big Bottle.

#### Grain Wanted.

The subscriber will pay market prices for all kinds of grain delivered at Camden East Mills, and No. 1 roller flour given in exchange for good wheat. Will also pay market price for all kinds of fat cattle.

R. F. BICKNELL.

#### Receipt of Classes.

Messrs. C. W. and M. A. Neville, of Newburgh, secured a large number of prizes on their sheep at Kingston Fair. Between them they took all the prizes for Cotswolds. In Leicester they also secured a number of prizes. In improved Yorkshire pigs these gentlemen also swept the class. So it may be fairly said that for Cotswold sheep and Yorkshire pigs the Nevilles are preeminent in this section.

#### Brilliantly Illuminated.

The palace on the show ground will be brilliantly illuminated on the evening of Monday the first day of the show. There will be several novel attractions, and a great crowd is expected, as the hall offers splendid promenading facilities to interesting couples.

#### Police Court.

Nine boys were complained of for throwing stones at the Grand Trunk train while passing the overhead bridge. They were brought before the Police magistrate and reprimanded and allowed their liberty under a suspended judgment upon payment of costs.

Richard Clark was caught in Wellington Baker's store, Dundas St., at 5 o'clock in the morning one day last week. He had been suspected and they waited in watch for him. He gained entrance through the window and when searched a key was found in his possession which fitted the front door, also a screw driver and a tin bank with some \$2.50 in it which he had stolen from the till. When brought before the P. M. he admitted having been in the store several times previous to being caught and had stolen \$20. He was remanded for 8 days and a restoration of the money was ordered paid to Mrs. Baker in the meantime.

—At Amherstburgh, Ont., on Saturday night, a colored man named Anderson Venev murdered his wife by cutting her throat with a penknife, and then attempted to cut out his own throat with the same weapon. Jealousy is assigned as the reason for the deed.

—Complaint is made about "the dreadful mortality" caused by trolley street cars in Toronto, whereas no accidents are heard of in Ottawa. But then it is not surprising that the people who send Denisons and Coatsworths to parliament do not know enough to get out of the way of street cars.

—A shocking accident occurred at the Blizzard nickel mine, Sudbury, about 4 p.m. Tuesday by which several men lost their lives and several will likely die of their injuries. A large section of the roof fell in, completely burying twenty miners at the bottom. Four dead bodies have been taken out so far, and the wounded are being cared for by two local physicians. It is impossible to obtain the names of the unfortunate men.

# "August Flower"

Mr. Lorenzo F. Sleeper is very well known to the citizens of Appleton, Me., and neighborhood. He says: "Eight years ago I was taken sick, and suffered as no one but a dyspeptic can. I then began taking August Flower. At that time I was a great sufferer. Every thing I ate distressed me so that I had to throw it up. Then in a few moments that horrid distress would come on and I would have to eat and suffer again. I took a little of your medicine, and felt much better, and after taking a little more August Flower my Dyspepsia disappeared, and since that time I have never had the first sign of it. I can eat anything without the least fear of distress. I wish all that are afflicted with that terrible disease or the troubles caused by it would try August Flower, as I am satisfied there is no medicine equal to it."

NAPANEE, FRIDAY, SEPT. 9, 1892.

SINCE the letter signed Education appeared in the columns of this paper, the trustees and the teachers of the Collegiate Institute have, we understand, held meetings. We suppose at each of these meetings there was a little desire to give the EXPRESS "particular fits." If so, nothing came of it, so far as we know. At the meeting of the trustees, all the members seemed to be of opinion that no fault or blame could be attached to the teachers for the poor showing made by the Institute at the recent exams. Tacitly it seemed to be admitted that there was something wrong. For want of anywhere else to lay the blame, it seems the examination papers are to be made the scapegoat. So we infer from the Beaver of last week. It must seem strange, however, to most folks, that some schools were able to pass as high as 90 per cent. in the Primary, and surely this does not look as though the papers were very hard. There can be but little doubt that the papers were of a general character, and would be confusing to pupils who had merely "crammed" for the examination. The Beaver gets off quite a lengthy article in last week's issue in defence of the "poor showing" made by the Institute but forgets to say that the "Educational Journal," which it quotes, is published for teachers and trustees, and also forgets to quote the Journal where it says, the papers although a trifle difficult showed a "leaning to virtue's side." The only way to arrive at an estimate of the work done in the Collegiate Institute that is known to the public is by comparison with other schools. If the papers were very difficult, all schools should show a decreased percentage of passed candidates. That this is not the case is apparent by results. The average over the province for Primary being 33 per cent., and for Junior Leaving 50 per cent. The Napanee Institute being provided with almost every known appliance necessary, and possessing a large staff of teachers, should make a showing above the average, not below it. The building and equipments being "second to none" as we have been assured time and again, why should the average of successful scholars be so low. This is the question, and the public want a satisfactory answer.

**THE LATE JAMES TROW.**  
By the sudden death of Mr. James Trow, ex-M.P. for South Perth, the Dominion has lost one of its most popular and estimable citizens. For twenty years Mr. Trow represented South Perth in the House of Commons and sat for the same riding for a term in the Ontario Legislature. During nearly the whole of his parliamentary career he was chief whip of the Reform party, and though a staunch supporter of his party on all occasions, his gentility, kindness, and uniform good humor won for him the respect and admiration of everybody. During the later years of his life Mr. Trow travelled much, visiting Europe on several occasions. He did a great deal towards making the richness of the Canadian Northwest known to the world, having travelled over the plains long before the Canadian Pacific railway was built, and published pamphlets describing his trips. Mr. Trow was a Welshman by birth, and emigrated to Canada when 16 years old. He began life as a school teacher and by careful attention to business acquired a considerable fortune. He leaves a widow and five sons, who have the sympathy of the whole Dominion in their sorrow. For several years the deceased gentleman was afflicted with heart weakness but his sudden demise was a great shock to his family and friends.

BEWARE OF IMITATIONS

The French Canadians who would not have Mr. Meredith in the Cabinet last year, on the ground that he was a Protestant and a representative of Ontario opinion, are now demanding the appointment of Sir John Thompson to the Premiership, and are crying "no ostracism."

The Montreal Witness believes that Mr. R. S. White, M.P. for Cardwell, will shortly be appointed Collector of Customs in Montreal, and that Mr. Meredith, now leader of the Opposition in the Ontario Legislature, will run in his constituency, and be taken into the reconstructed Dominion Cabinet.

Great hardships are being endured by the passengers of the Labrador who were landed at Grosse Isle. There is absolutely no accommodation at the quarantine station, and were it not for the efforts of the captain of the Labrador the passengers would have been without beds, bedding, cooking utensils or food.

The CONSERVATIVE newspapers who have been busy inventing and spreading reports of impending changes in the Liberal leadership, can now turn their attention to their own party. A beautiful family row appears to be looming up there over the succession to the premiership. We fail to see any good grounds for Conservative opposition to Sir John Thompson. His ability is unquestionable; and the element of the party that opposed his advent to leadership a year ago because they feared he was too honest a politician to be successful, have surely by this time recognized that they misjudged his character.

Hamburg, the chief distributing point of the plague of cholera, is the fourth city according to population in the German empire. According to the census taken in 1890 it has 323,923 inhabitants. The city of Altona, however, to all intents and purposes a part of Hamburg, has 100,000 population or more, and there are other immediate suburbs that bring the population to fully 500,000. The troubles of Hamburg, however, have not arisen from its size, but from the filthy surroundings of many of its residences and its impure water supply. Its terrible experience is a warning to every city, town, and village in the world. Cholera cannot thrive where the people are cleanly, eat good food, and drink pure water.

### Wonder Workers.

An English mint possesses an electrically operated machine for counting coins.

A Vienna omnibus company employs incandescent electric lamps upon its vehicles.

There is a tree in Jamaica known as the life tree on account of its leaves growing even after being severed from the plant; only by fire can it be entirely destroyed.

The Russian physician who proposes to cure neuralgic pains by throwing a beam of electric light from an arc lamp on the part affected is entitled to a respectful hearing. It will be a long time before we exhaust the uses of this mystic agent.

A French manufacturer makes minute electric lamps about the size of a pea for the use of photographers in the dark room. They are intended to be mounted in the middle of a pair of spectacles or on the frame without the glasses, the lamp being shielded by a reflector. The battery is made up of accumulator cells.

A German chemist has patented a method for the isolation of the fibres of wood so that they can be spun and made into yarns capable of being woven. The wood is first cut into thin strips, which are repeatedly passed between roughened rollers, so that they are bent and cracked in many places. After thorough treatment in this manner the mass is finally changed into a fibrous substance, the fibres being very delicate and soft, and yet strong. It is said that the material can be spun like cotton, and takes colors very well.

A German has patented a process for making barrels without staves. The trunk of a tree is sawed into lengths to the size of the barrel required, and the chunks are placed in a boiler and boiled for a few hours. It is believed that if a current of electricity be passed through the boiler a chemical action is generated that softens the wood for working. After the boiling the bark is stripped from the chunks. In front of a cutting tool the chunks are held by forks in a manner similar to that in which a piece of wood is held in a lathe. The chunk revolves rapidly against the edges of a fixed broad blade that cuts a continuous sheet of soft wood of any desired thickness. The strip passes to a flat table, where it is cut transversely into lengths of the required size. One machine cuts grooves for the head and bottom, and another cuts V-shaped slots out of the edges. Then the pieces are bent into cylinders and hooped. Moisture is extracted by a drying process.

Baseball managers are only human. They, too, hang on to a pitcher as long as there's anything in it.

Little Elsie—Who was Shakespeare, pa? Scribbles (the playwright)—One of my predecessors, child.

Husband—My dear, there's a burglar in the room. I have no revolver. Wife—Then look daggers at him.

Our wife wears our suspenders to church to-morrow, but we'll be on hand hitched up with a buggy trace.

The man who never tells his wife anything of his business affairs is the first to make over his property to her when he fails.

"Why do you charge me ten cents for a shine, while all the other boys charge only five?" "Tee de president of de Bootblacks' Union."

Ethel—You remind me of my piano lamp. Stalate—How so? Ethel—No matter how much it is turned down, it doesn't go out.

Always a Woman—Mike O'Rafferty (pulling his wife out of the well)—Be gorra! a woman's at the bottom av' everything.

"Doctor, what is a good chelera mixture for this time of year?" "Well, ice cream, watermelon and lager beer will do very well."

A Sudden Flight.—She (anxiously)—How did papa appear when you asked for my hand? He—I didn't have time to see, darling!

—Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with no relief. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy. A trial bottle will convince you. Warranted by Detlor and Fullerton, Druggists."

**Holloway's Pills.**  
 Indigestion, Stomach and Liver Complaints.—Persons suffering from any derangement of the liver, stomach, or the organs of digestion should have recourse to Holloway's Pills, as there is no medicine known that acts on these particular complaints with such certain success. Its peculiar properties strengthen the stomach, increase the appetite and rouse the sluggish liver. For bowel complaints it is invaluable, as it r moves every primary derangement, thereby restoring the patient to the soundest health and strength. These preparations may be used at all times and in all climates by persons affected by biliousness, nausea, or disordered liver; for flatulency and heartburn they are equally good. Indeed no ailment of the digestive organs can long resist their purifying and corrective powers.

—Few medicines can cure colds in the head, but Magnus Expectorant can, giving speedy and sure relief. 25c per bottle at all druggists in town.

**A Ridgetown Hotel Burned.**  
 RIDGETOWN, Ont., Sept. 14.—Ridgetown's palace hotel, the Grand Central, William Baby, proprietor, was completely destroyed by fire at an early hour yesterday morning. At one time the town was in imminent danger, but owing to a heavy rain which was falling the sparks and cinders did no damage. The origin of the fire cannot be learned at the moment. J. A. Darts' block, immediately adjoining, was considerably damaged and was saved only by the heroic efforts of the fire department. Loss about \$18,000; insurance \$10,000. All the inmates of the hotel escaped safely.

**A Victoria, B.C., Hotel Man Dead.**  
 VICTORIA, Sept. 14.—Robert H. Ward, proprietor of the Albion Hotel, 7 Herald-street, dropped dead in the hotel Monday afternoon, presumably of heart disease. An inquest will be held, after a post-mortem at Lockhart's undertaking parlors. The body will then be embalmed and sent east to the deceased's old home, St. Thomas, Ont., for interment. Mr. Ward was 42 years of age and leaves a wife. He lived in Victoria for many years and is well known.

## A Consideration.

GENTLEMAN.—My brother suffered from summer complaint and was extremely weak. We tried many remedies but without effect. At last my aunt advised us to try Dr. Fowler's Extract of Wild Strawberry, and before he had taken one bottle he was cured. We consider it saved his life. MISS ADELAIDE CRITTENDEN, Baldwin, Ont.

"How is Winter getting on?" "Well, when I last saw him he hadn't a shirt to his back." "Poor fellow? Where did you see him?" "Bathing."

Fair Soprano (having finished her trial)—Do you think my voice will fill the hall? Grim Manager—I fear it would have just the opposite effect.

For a man who shows so much push in his business, the fellow who trundles a wheelbarrow doesn't seem to get along very well.

Will—Where's your chaperone? Florence—Oh, I took pity on the poor thing. I thought she was being overworked, and gave her a day off.

Bobby—What makes Miss Footlights wear her earrings in the water? Mamma (savagely)—Her sense of propriety compels her to wear something.

"Here is the ring," he cried. "Now will you be From this time forth engaged to marry me?" "Wait till papa can see it," said the elf, "I'm not a judge of diamonds myself."

Boarder—It seems to me that every morning the past week the cakes have grown smaller. Landlady—You probably forget that these are flannel cakes.

"I can't understand why all the rest of my teeth should ache just because one of them happens to be a little sore." "O, the others are on a sympathetic strike, I suppose."

"Why don't you eat your crackens, Jack?" "I don't like crackens." "Why, you ate three a little while ago." "Yes, but that was between meals. I like everything then."

## MODERN PRECOCITY.

At seventeen she seeks a way Her intellect to prove. She wrote a tale the other day, "The Universe and Love."

He—I have decided to ask your father's consent by letter, Pauline. Now, what sort of a letter would you advise me to make? She—I think, Horace, that I would make it an anonymous letter.

He—If I were to try to kiss you what would you do? She—Scream. He—Do you mean it? She (impressively)—Indeed I do, so you had better wait until we are out of hearing of the hotel.

"There's one thing I don't understand," said little Harry; "that's why good tasting things like pie make me sick, while bad tasting things like medicine make me well. It ought to be the other way."

*Gold not so Precious.*

Sirs.—For several reasons we have relied on Dr. Fowler's Extract of Wild Strawberry for all summer complaints. A few doses always gives relief and it never fails to cure. We think it a very valuable medicine; as precious as gold.

Mrs. F. C. WINGER, Font Hill, Ont.

## THE OWEN ELECTRIC BELT

AND APPLIANCE COO.  
49 KING ST. W., TORONTO, ONT.  
G. C. PATTERSON, Mgr. for Canada.

## Electricity, as applied by the Owen Electric Belt,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will effect cures in seemingly hopeless cases where every other known means has failed. It is nature's remedy, and by its steady, soothing current that is readily felt,

## POSITIVELY CURES

Rheumatism, Sciatica, General Debility, Lumbago, Nervous Diseases, Dyspepsia, Varicose, Sexual Weakness, Female Complaints, Impotency, Kidney Diseases, Liver Complaints, Lame Back, Urinary Diseases.

## RHEUMATISM

It is a well known fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although Electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

## TO RESTORE MANHOOD

Thousands of people suffer from a variety of nervous diseases, such as Seminal Weakness, Impotency, Lost Manhood, Weak Back, etc., that the old modes of treatment fail to cure. There is a loss of nerve force or power that cannot be restored by medical treatment, and any doctor who would try to accomplish this by any kind of drugs is practising a dangerous form of charlatanism. Properly treated

## THESE DISEASES CAN BE CURED

Electricity, as applied by the Owen Electric Belt and Suspensory, will most assuredly do so. It is the only known remedial agent that will supply what is lacking, namely, nerve force or power, impart tone and vigor to the organs and arouse to healthy action the whole nervous system.

## SAFELY HOUSED ASHORE.

THE QUARANTINED PASSENGERS ON FIRE ISLAND.

The Opposition to Their Debarking on Fire Island Was Overcome and They Are Well Provided For—The Troops Were Called For But Will Not Be Needed—An Appeal for Funds.

BAByLON, L.I., Sept. 14.—From all indications in this place the Bay Shore men's little war is over. The Normannia's passengers have all been safely landed and have been made as comfortable as possible. They have plenty of good food, nice rooms, attendance and everything that they can wish except freedom. There is no need now to send any troops here. On Fire Island, in Babylon, at Islip and at Bay Shore all is quiet. This evening the Associated Press correspondent in the face of half a gale of wind put off from Babylon and took a scudding view of the quarantined passengers on Fire Island. The lights in the big hotel burned cheerfully. People were coming and going before the windows and everything seemed as peaceful as possible. Away to the southwest angry banks of clouds had gathered, and the waves more than once gave a sample of what the Cepheus and her passengers would have experienced if that vessel had been compelled to lie at anchor in the channel last night.

The sheriff has informed Governor Flower that there is no further use for troops. It is expected that the military will be withdrawn to-morrow and they will not go to Fire Island.

The quarantine is little less than a farce. A number of boats and yachts have landed people who were permitted free intercourse with the Normannia's detained cabin passengers.

Troops For Fire Island.

NEW YORK, Sept. 14.—Yesterday afternoon Governor Flower decided to send the 13th Regiment of Brooklyn to Fire Island, and they were ordered to be ready to take a special Long Island train at 5 o'clock.

Adjutant-General Porter passed a sleepless night last night in preparing all the arrangements. The total military force of investment will equal 1000 men. This is the first time the naval reserve has been called out for active duty and they will be given an opportunity to show what they can do as active militia.

## TRAGEDY AT MONACO.

A Young Man Shoots Himself at the Princess' Feet.

BERLIN, Sept. 14.—The Fredemblatt has a dispatch from Monaco giving an account of a sensational tragedy at that place. Prince Albert of Monaco and his wife, the Princess Alice, on returning from their recent tour were received with great enthusiasm by the people of the principality, the attaches of the Casino turning out especially in strong force to greet him. The little army of members was drawn up at the landing, as a guard of honor, and the Governor and council were present to deliver addresses.

The cannon thundered a greeting and the scene was of a most joyous and festive character when suddenly a young man burst through the throng and rushed toward Prince Albert and the Princess. He was well-dressed, but his wild and disordered appearance at once caused dismay among the group which surrounded the sovereign. In his hand he grasped a weapon, and before anybody could interfere he raised the pistol, for such it was, and putting it close to his head, fired and fell dead at the feet of the Princess. The Princess, who had a moment before been all smiles, nearly fainted. She gave a cry of alarm and sank back in the arms of her husband.

A dozen officers sprang forward and seized the prostrate body, only to find that life was extinct. The life blood which oozed from the wound almost stained the garments of the Princess. On searching the body not even a centime was found, but there was a ticket to the Casino which told the story of his fate. He had evidently been overcome by despair, after losing all he had in the great gambling establishment which supplies a revenue to support the Prince of Monaco in luxury, and had determined to end his life at the feet of the Princess.

Prince Albert and the Princess were so shocked that the reception ceremonies came to an almost abrupt conclusion, and they both hurried once more abroad their magnificent yacht and sailed toward the South. The body of the suicide was borne to an unmarked grave in the cemetery which contains so many victims of Mt. Blanc gaming tables.

Emperor William's First Daughter.

## CONVENTION IN THE CITY

THE EXHIBITION GIVES OPPORTUNITY FOR MEETING.

Patrons of Industry Hold a Mass Meeting—Foregathering of the Members of the Gardeners and Florists, Ontario Agricultural Union, Ontario Creameries Association, Trades Congress.

TORONTO, Sept. 14.—The Patrons of Industry held a sort of mass meeting in the old grand stand at noon. There was a large gathering of farmers, besides members of the association.

Grand President C. A. Mallory made a vigorous speech, and monopolies were his special point for attack. These combines, he held, were the cause of many evils that afflicted the farmer, particularly mortgages. They also conduced to the cost of living, and he urged, amid applause, that united action should be taken to crush the cause of their burdens.

Other speakers were: Grand Vice-President Miller, Grand Trustee T. O. Curry, Gifford, Foster, Bro. Bagley, Grand Secretary L. A. Welch.

The announcement that an anti-monopoly binder twine establishment had been started the previous day in Brant County was greeted with loud cheers.

The Experimental Union.

TORONTO, Sept. 14.—The members of the Ontario Agricultural and Experimental Union met at 11 a.m. in Exhibition board room yesterday and arranged a program for the next annual meeting, to be held in Guelph Agricultural College, Dec. 22 and 23.

Among those present were Principal Mills, C. A. Zairtz of the Agricultural College; T. Monteith, Stratford; S. P. Brown, Whitby; S. Buchanan, Toronto; R. F. Hatterman, Brantford.

The union is an association of students and ex-students of the Guelph Agricultural College. It acts in concert with practical farmers throughout the province in carrying on a system of experiments in agriculture and horticulture. The union was started in 1876. Twelve years ago it had 12 plots in the province; now there are about 500.

Gardeners and Florists Confer.

TORONTO, Sept. 14.—The Gardeners and Florists' Society met at 2 p.m. in the boardroom, President Chambers in the chair. The attendance was good.

Professor Saunders, Dominion Commissioner to the World's Fair, addressed the meeting in reference to the exhibit of plants and cut flowers. Canada, he said, had been allotted one seventh of the space in the Horticultural Building, and he urged that this space be

### PROF. LOUDON APPOINTED.

The Government Names the New President of Toronto University.

TORONTO, Sept. 14.—At a meeting of the Executive Council of the Province yesterday afternoon an order was passed appointing Prof. Loudon President of the Provincial University in the room of the late President, Sir Daniel Wilson. The salary was fixed at \$5000 per year—\$3200 as professor and \$1800 as president.

This announcement will create no surprise, but will be received with general satisfaction by University alumni everywhere. With his fellow-graduates Prof. Loudon has always been popular, and to them it would have been a serious disappointment had he been

passed over. Of this there never was any serious chance. From the first it was Prof. Loudon, or some outsider of eminence, whom nobody was prepared to name, and to those who saw beneath the surface this meant the conclusion which has just been reached.

#### The New President.

The record of Prof. Loudon's career must be brief, for it has been comparatively void of stirring incident. Born in this city in 1842, he was educated in the Toronto public schools and at Upper Canada College, from which he passed to the University of Toronto with more than average distinction. As a matriculant he took a high stand in both classics and mathematics, which were regarded then, even more than now, as the great means of liberal culture. Mr. Loudon maintained his pre-eminence during his undergraduate course, and in 1862 took the degree of B.A. with a gold medal in mathematics. He was at once appointed a member of the teaching staff of University College, being required to give instruction in both mathematics and classics, though he was shortly after confined to the former. At that time the professor of mathematics was J. B. Cherriman, M.A., who retired in 1876 to become inspector of insurance companies under the Dominion Government. During the 14 years of his tutorage, Mr. Loudon devoted himself largely to "applied mathematics," more commonly de-

### ESCAPED THE GALLOWS.

LUNDY OF BRAMPTON FOUND GUILTY OF MANSLAUGHTER.

In April Last He Shot His Wife, Killing Her Almost Instantly, But the Jury Saved Him from the Gallows—Sentenced to Twenty Years' Imprisonment at Kingston.

BRAMPTON, Ont., Sept. 14.—James B. Lundy was tried at the assizes yesterday for the murder of his wife, Clementina, in April last. While his wife was entertaining visitors at the Lundy residence, the Brampton House, Lundy called his wife to the kitchen and fired three revolver shots at her, all the bullets taking effect and death being almost instantaneous.

The evidence was conclusive of murder, but the jury returned a verdict of manslaughter, and the judge reprimanded them for their leniency. Lundy was sentenced to 20 years in Kingston Penitentiary. Lundy is 45 years of age.

#### ARCHBISHOP TACHE'S VIEWS.

The System of National School Not Satisfactory.

WINNIPEG, Sept. 14.—In an interview with Archbishop Tache Tuesday, reference was made to a Winnipeg despatch which appeared in Le Canadian, which stated that Sir John Thompson would receive from Archbishop Tache a letter accepting the situation here. His grace ridiculed the despatch. He had received no communication and sent none. Newspapers were frequently publishing absurd stories. It had even been said in an eastern paper that the visit of his cousin, M. Buere, from Quebec, who was a Protestant, had been made on political business of the church.

Regarding the new system of national schools he would not say that the religious exercise prescribed by the regulations debarred Roman Catholics from using the public schools. But should Roman Catholic children attend public schools he would not sanction their remaining during those exercises, even if they were word for word the same as those used in Ontario. Exercises might possibly be devised which could be used by Roman Catholics and Protestants in common, but he thought it would prove very difficult.

### What is

# CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

#### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. C. C. Osborn,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitcheloe,  
Conway, Ar.

#### Castoria.

"Castoria is now adapted to children that I recommend it as a superior to any prescription known to me."

H. A. Ancker, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

pleth mathematics, more com-  
designated now "mathematical physics," in-  
cluding heat, light and electricity, with  
statics and dynamics. On Prof. Cherriman's  
retirement he was appointed professor of  
mathematics and physics, and his inaugural  
address at the time was a masterly review  
of the state of physical science to date. The  
note sounded in that address was a correct  
foreshadowing of what has since taken place  
—the building up a useful physical labo-  
ratory, the combination of experimental with  
mathematical physics, the separation of the  
latter from pure mathematics, and the re-  
quirement of practical work in the labo-  
ratory as a test of the student's progress in  
knowledge of his subjects. Since 1887 Prof.  
Loudon has been professor of physics only,  
and it is safe to say that in no university  
with the same equipment has better work  
been done in the use of physics as a culture  
subject.

#### THE TORONTO EXHIBITION.

##### A Heavy Rainstorm Interferes With Yesterday's Attendance.

TORONTO, Sept. 14.—Yesterday rain fell heavily and continuously from noon till the close of the show. Thousands, nevertheless, saw the exhibition under dis-  
comforting circumstances. The pluvial  
downpour prevented the program of amuse-  
ments and fireworks being carried out.

This is farmers' day and the fair will be  
under the patronage of the Farmers' Insti-  
tutes of the Province and the Dominion  
Grange and Patrons of Industry Every de-  
partment will be open from 8 a.m. till 10 p.m.  
The receipts were:

	1890.	1891.	1892.
First day.....	\$ 880	\$ 635	\$ 743
Second day.....	1,174	891	1,222
Third day.....	635	2,810	2,812
Fourth day.....	4,084	4,937	5,540
Fifth day.....	4,665	3,834	5,460
Sixth day.....	15,498	14,229	16,001
Seventh day.....	9,840	8,866	4,764
Total.....	\$26,676	\$34,302	\$36,602

These figures show a decrease of \$2102, com-  
pared with the corresponding day of last year,  
and of \$5076 compared with 1890. Taking  
the seven days altogether there is still an in-  
crease of \$2400 over last year, but the slight  
decrease of \$74 compared with 1890.

##### The Live Stock Exhibition.

The live stock at the Industrial this year  
surpasses all exhibits of previous years and  
has probably never been beaten in America.

The cattle exhibit is of about the same  
dimensions as last year and is superior in  
quality. There are large exhibits of Dur-  
hams, Aberdeen Angus, Jerseys and Hol-  
steins and a considerable number of Ayre-  
shires and Devons. The Holsteins are  
steadily increasing in numbers, and it is ex-  
pected that they will for a few years yet.  
Canadian breeders have wrought much im-  
provement in this breed of cattle. Instead  
of the former slab-sided beasts, Holsteins  
are now well formed, handsome animals.  
Among fat cattle, too, the quality is better  
than it used to be. Instead of lumpy, clumsy  
beasts, Canadian fat cattle are now well-  
formed, good-looking beasts and are quite as  
heavy as formerly.

The sheep exhibit is in the opinion of most  
sheepmen the greatest ever held in America.  
It is half as large again as it was last year,  
and the quality is of the very finest. Nearly  
all the English Royal winners in Canada  
are on exhibition. The greatest increase is  
in Cotswolds.

The pig exhibit is about the same size as  
last year. The quality is on the whole  
better. Suffolks are increasing in numbers.  
There are not nearly so many Tamworths as  
during the last two years. The attempt to  
introduce the red hogs seems to have failed.  
Among the improved Yorkshires and the  
Berkshires the heaviest hogs are found. One  
or two in each variety hit the scale a little  
over 800 lbs. There are many Royal prize-  
winners, and the exhibit would be  
even finer if hogs had been imported into  
Canada this year. The prevalence of disease  
among European hogs has caused the entire  
prohibition of foreign hogs during the past  
year.

The exhibit of poultry and pigeons is the  
largest ever held in Canada. The principal  
increase is in Minorcas, Plymouth Rocks,  
Wyandottes and Buff Cochins. The Bantam  
exhibit is perhaps the finest portion of the  
collection. The ornamental varieties are  
particularly beautiful and interesting. The  
Pekin Bantams, which are miniature Cochins,  
attract a great deal of attention.

The pigeons and pet stock are more nu-  
merous than ever. The Carriers and Pouters  
seem to be the most popular breeds.

##### Mrs. Harrison Very Ill.

LOON LAKE, N.Y., Sept. 14.—President  
Harrison makes no effort to conceal his  
great anxiety over the condition of Mrs.  
Harrison, and was at her bedside the  
greater part of yesterday. The whole  
family share his deep concern and all are  
evidently apprehensive of a continuance of  
the present unfavorable symptoms.

##### Lost Control of the Motor.

St. Louis, Mo., Sept. 14.—Two persons  
were killed and 13 badly injured in a street  
railway accident here yesterday. In going  
down a steep hill the motorman lost control  
of the car and it jumped the track.

#### BURIAL OF THE METROPOLITAN.

##### An Imposing Procession Through the Streets of Fredericton.

FREDERICTON, N.B., Sept. 14.—The  
funeral of the Metropolitan Tuesday was the  
largest ever seen in the city, people being  
present from all parts of the province.  
After service in the Cathedral a procession  
was formed headed by the band of the Cana-  
dian regular infantry, and comprising over 60  
Episcopal clergymen, St. George's Society,  
Society of St. John, clergymen of the Ro-  
man Catholic and the Presbyterian Churches  
and citizens of all classes and creeds. All  
stores and public buildings were closed. The  
streets through which the procession passed  
were lined by infantry. Bishop Courtney of  
Nova Scotia walked with Bishop Kingston,  
successor of the late Bishop Medley.

At a meeting after the funeral steps were  
taken for the erection of a suitable monu-  
ment.

—Hood's Pills cure Sick Headache.  
—Gibbard's new finishing room is about completed.  
—Mr. T. Robinson and family have moved to Kingston this week.  
—The attendance at the Collegiate Institute now averages about 200.  
—The Toronto Fair as usual has drawn a good many from this section.  
—Ven. Archbishop T. Bedford Jones of Kingston, has returned from his visit to England and Ireland.  
—Mr. Ham Loucks moved in the house near the Catholic church this week which he recently purchased.  
—Large supplies of school books, school requirements and many novelties just received at the Express bookstore.  
—What is the matter with some of our Correspondents? Holidays are over now and we wish to hear from them.  
—Burglars operated in Belleville last Saturday night. It is thought that certain attaches of Washburn's circus are the guilty parties.  
—Edward Kimmery, an old time resident of Napanee, died in Watertown at his son-in-law's residence, Miles Oliver, on Friday last, aged 89 years.  
—Mr. Benjamin Wilson and Miss Greenway, of Camden East, were married on Monday last, and took the noon train for Toronto.—Congratulation.  
—Last week Mr. C. H. Douglas, the popular manager of the Paisley House, was presented with an address and a handsome gold-headed cane by his employees.

In a class of thirty he passed third for solicitor and fourth for barrister.  
—Has the minister of finance decided to place truth at open defiance when making speeches? He declared at Petrolia that the net public debt of the Dominion decreased by a million dollars in 1892, whereas the returns issued by his own department show that it increased by over three million dollars. Sir John Thompson, who is the president of a Truth society, should endeavor to convert his abandoned colleague. Perhaps Mr. Foster will plead that he made his Petrolia speech "in a moment of weakness."

**Wedding at Switzerville.**  
A very interesting and happy social event took place at the residence of Mr. J. L. Miller, Switzerville, on Wednesday evening, September 7th. The event being the marriage of his daughter Ettie to Mr. Edward Johnson, youngest son Mr. John Johnson, and one of Ernestown's most popular young men. Shortly after 8 o'clock the bridal party appeared, and Rev. A. C. Wilson, of Newburgh, performed the ceremony. The bride was assisted by her sister, Miss Hattie Miller, and the groom by his cousin, Mr. J. S. Johnston, of Kin.

The hop crop in this district, which is now being picked, is very satisfactory. The quality is fine, the yield is large, and the price, up to date, is satisfactory.

**One Day Too Late.**

A large number of appeals were put in last Friday to the judge against the voters' list for the township of Camden. The law requires that they should be put in within thirty days, but on looking over the calendar it was found they were only a day too late.—Whig.

**Opening Up a New Road.**

A 66 foot private road is being opened up across the old glass works property, off the Selby road. A proposition is on foot to lead the road to Vine's corner, Newburgh road, and make a public thoroughfare of it. Should the project be carried out it will prove quite a convenience.

**A Fine Exhibit.**

Mr. J. S. Hulett will have a very large and interesting exhibit of photos at the Lennox Fair. His collection will be worth looking at and we direct the public attention thereto. In these days of peripatetic vendors of cheap large photos and dear frames it is a pleasure to know that right at home cheap photos and elegant frames can both be had. See Hulett's art gallery by all means.

**A Fine Old Relic.**

World's fair commissioner John Boyd Thacher, presented the city of Albany with an interesting relic in the shape of an order of Queen Anne of England to her treasurer, Earl Godolphin, to pay the claims of Peter Schnyler, (the first mayor of the city) James Douglas and Abraham Schnyler, \$2695 16s for expenses, etc., in bringing Indian chiefs from Albany to England in 1710. It is in a good state of preservation and is enclosed in an oaken frame.

**Chariot Races.**

Since the popularity achieved by the story of Ben Hur, Chariot Races have become an adjunct of almost every circus. But indoors the chariot race is a tame affair, and therefore the public will be pleased to know that the Directors of the Lennox Fair have engaged some celebrated lady drivers to give an exhibition of this kind on the show ground on both days. The ladies are to be in fancy costumes. These races were a principal attraction at Kingston and Gananoque shows.

**Good Work.**

William Embury, Henry Wagar, and Matt Scott are making a very fine job of the two shop fronts in the west half of the Grange Block, which will be equal when finished to any of the kind in town. The job is under the direction of Mr. Embury, who also put in the new front in the store now occupied by Boyle & Son, which is claimed to be the finest shop front in town. Being a double-windowed, spacious and lofty shop Mr. Embury had a chance here to show what he could do, and the result is highly satisfactory, especially to Boyle & Son.

**Died in Paris.**

Mrs. (Rev.) J. M. Hodson, only daughter of Police Magistrate G. C. Curry, of Picton, was a victim to Typhoid fever in Paris, France, and died on Monday last, in her 32nd year. The sad intelligence was wafted over the submarine wire the same evening. Mr. and Mrs. Hodson sailed for the Old Country on the 8th of June, intending to be absent about a year. She was married to Rev. Mr. Hodson in 1879. Her mother and father and two brothers survive her. She had always enjoyed the best of health, and the news of her death was received with profound regret. The deceased lady was a prepossessing woman and of rare intellectual culture.

**False Weights.**

Inspector Johnston, of Belleville, is busily following up the many people in the district who are using false weights and measures. He is at present after the hop growers and grain threshers, a number of whom he will prosecute. The measures used by many of these people have not got the "crow's foot" on them, are in some cases fraudulent, and almost every man has a standard of his own for making measures by, all of course being contrary to the act. Some measures bear the government brand but have been altered, a slice having been taken off the

son. The bride was very becomingly attired in pearl white with the customary veil, etc., and looked the ideal bride on this festive occasion in her honor. It is unnecessary to take time or space to allude to the good qualities of the bride, as she is well-known. After the ceremony and congratulations were over, the company—seventy five in number—repaired to the dining hall where a sumptuous repast had been generously provided. After tea the evening was pleasantly passed in social intercourse, music, and inspecting the elaborate collection of presents. The happy couple left for Port Hope, Toronto, and Niagara Falls by the early morning train.

## They Must Not Die.

It is simply an outrage to let young people die who are attacked with pulmonary troubles and incipient consumption, when Miller's Emulsion of Cod Liver Oil will save them. It should be shouted from the house tops that supposed incurable consumptives can be cured by the use of this extraordinary preparation. The rebuilding process commences in the system the moment the Emulsion is taken. It is curious to watch the effects upon emaciated persons, who begin to fill out and make new blood as often as Miller's Emulsion is administered. In an incredibly short time cadaverous looking patients again look natural and healthy. In big bottles, 50c. and \$1, at all Drug Stores.

## Fire.

Yesterday morning about 10 o'clock a fire took place in the residence occupied by Mrs. Boyd, Robert street. The fire was observed by Mr. Milling, who lives on the street above, and he promptly ran and gave the alarm, but owing to some mismanagement at the Central office, a wrong alarm was sounded, the bell pealing out first 2, then 3 and 4, in succession, which was rather puzzling to the firemen, who did not know in which direction to go. First they ran away down Bridge street and up towards the east ward school, thinking the fire was at No. 2. Mr. Milling however, headed some of them off and informed them where the fire was. They were soon on the spot and extinguished the flames. Mrs. Boyd had been down town and was just returning when the alarm was given. She remembered that she had some some \$40 in the back bedroom and ran to get it but found it missing. She was fretting a good deal about the loss of her money when her son James came up and told her he had got the money during her absence. Nearly everything was moved out of the house when the firemen got there and they were but a very short time extinguishing the flames. A great deal of damage was done to the house, which is owned by Mrs. Mortimer, of Belleville, and is said to be amply insured. The fire was caused by a defective flue.

## Indians Organize

A meeting of the Mohawks of the Tyendinaga Reserve was held last week, at the Council House for the purpose of organizing the Canadian Indian Rights Association, formation of which, it will be remembered, was proposed last July. The object of the association is to guard the common rights, protect the interests, promote the welfare, preserve the history, treaties and traditions of the Indians of Canada, and to diffuse information with a view to creating a more general interest in both the spiritual and temporal progress. The meeting was largely attended by the members of the band. Ex-Chief Cornelius Maracle, was called to the chair and performed his duties admirably. After stirring addresses by the chairman, J. B. Grant, Wm. Green and others, on motion of Nelson Maracle, seconded by Douglas Powles, it was resolved to proceed with the election of officers. John A. Loft acting as clerk during the election. The following officers were elected: Jacob B. Brant, principal chief; Cornelius Maracle, 1st. asst. chief; Wm. Green 2nd. asst. chief; Walter A. Brant, secretary; Douglas Powles, treasurer; Samuel Lewis, orator; Cornelius Maracle, Chaplain; Peter Doren, Messenger; members of council—Henry Brant, Wm. G. Maracle, John P. Brant, Joseph Maracle, Abram P. Brant, John Baptiste, John Claus, Simon Hill, David P. Brant, David J. Brant; legislative committee—Nelson Maracle, Isaac Baptiste, A. J. S. Maracle, Cyrus Maracle, Jos. Picard, Albert Maracle. It was resolved to hold a grand demonstration on the 1st day of July, 1893 which it is intended will surpass any previous demonstration held on the reserve. The association starts out with fifty members. The regular nights of meeting will be on or before the full moon of each month. Before separating Mr. W. G. Edgar, of Deseronto, was unanimously elected a member of this important association.

rim and new bottoms put in. Selling apples by the crate is also a direct violation of the act. Report all such cases to the inspector and a remedy will be applied.—Deseronto Tribune.

## Parish of Selby.

The Annual Harvest Thanksgiving services under the auspices of the above Parish, were celebrated on the 4th inst., in St. John's church, Selby. The Rev. Rural Dean Baker, of Bath, was the celebrant and preacher of the day. Both services were largely attended, especially that of the morning, when the sacred edifice was filled to overflowing, and many being unable to gain admittance. At this service there were 53 communicants and 4 baptisms. The church was nicely decorated and the offerings were liberal. On the following Wednesday a harvest home picnic was held in M. Carscallen's grove. Addresses were delivered by the Revs. A. Jarvis, D. F. Bogart, and R. Atkinson. The proceeds of the services and picnic amounted to over \$100, which clears the fine parsonage property at Selby from debt.

## The Circus.

Washburn's circus visited the town on Friday last and had a fair attendance at both afternoon and evening performances. They had no ring, no animals, excepting horses, and lacked other attractions which they advertised. The circus, however, will hardly ever be forgotten by some young men who fell prey to the little side show performance and lost quite large sums of money at what is known as the pea and shell game. It consists of three shells and a pea, the operator rolling the pea under the shells in such a manner as to deceive the eye, when at the finish he catches the pea between the third and fourth fingers where he generally holds it, asking you to bet a dollar or from \$1 to \$15 or \$20, that the pea is under the shell where you last saw it go. By the aid of what they call "cappers," hired help, they succeed in catching many a "sucker" who continues to bet, and bet, until generally he loses all his money. In this way, we are told, they succeeded in alluring some Nananee youths, taking as much as \$170 from one, and \$60 from another, besides various sums of from \$1 to \$10 out of young farmers, whom they call "greenies," thus verifying the old age "a fool and his money are soon parted."

## Disastrous Fire at Belleville.

A disastrous fire broke out at four o'clock yesterday morning in C. P. Holton's lumber yard, and hardly before the neighborhood was aware of its presence the flames had licked up thousands of dollars worth of lumber. The origin of the fire is unknown, but it is supposed to have been the work of some drunken incendiary. The night watchman states that if anyone entered the yard it was without his knowledge. He protests that he kept a close watch on the premises during the night. Out of \$20,000 worth of lumber not more than \$2,000 worth was rescued from the flames. The bunchwood was not burned—a good deal of which was contracted for. Mr. Holton had an insurance of \$6,000 in the Phoenix company. The flames were not subdued until a late hour last night. To make the situation worse the water-works main broke on Commercial street in front of J. Parker Thomas' residence which rendered the service useless. By the time the two reserve engines were brought into use great damage had been wrought by the delay. It is the third time the premises have been burned out. The last fire took place seven years ago, which considerably crippled the firm. They had hardly recovered from its effects when a similar loss was sustained. Ontario Mercury.

## A DRY GOODS STOCK WITHOUT A RIVAL!

We have built on doing the biggest business on record in Napanee this fall season. We must do it, for we have the goods to sell; but we believe they are so bought that it will be easy work to sell them. Since last July case after case and bale after bale have come tumbling in, 'till the stores are blocked up and overcrowded with big stacks of new things, and the shelves are groaning under their load. In every department and every line we have bought better than we ever did before. How and when we got them does not matter, we ask you to

## SEE HOW WE SELL THEM

We do not believe that we need fear any competition, between Toronto and Montreal, for **VARIETY, VALUE, CHOICE STYLES**, and now, at the opening of the fall season, we ask your judgment on the goods we show, and the prices we ask for them, in the certainty that

James McElroy, of Odessa, has been placed on the list of pensioners of the U. S. Government, and received a cheque for \$135.00 back pay, and an allowance of \$6.00 per month. He is also pushing his old claim, and expects a still further grant. Twenty-four years ago he was granted a pension of \$6 per month, but at that time considered it too small and refused it.

### We Lose It.

A good concert was promised on Sept. 26th. Miss McCartney, of Kingston, Miss Fralick, of Picton, Miss L. Hall, of Napanee, and S. H. Clarke, Toronto, were to have been the attractions. After letting the Opera House Mr. Perry discovered that he had made a contract with an "Uncle Tom's Cabin" Co'y for that date. So we lose it. There is a committee of twenty young people who intend giving a number of concerts during the winter and this was to have been the first.

### Might Have Proved Serious.

What might have proved a serious accident happened in the gymnasium at the Collegiate Institute last Wednesday afternoon. Charles Fox was trying to show how to perform a rather daring feat, what is known as the giant's swing, when his hands slipped while he was in mid-air, and he swung out about three feet over the matress and lighting on his back on the bare floor became unconscious. Dr. Rutan was summoned. The young man remained unconscious about five minutes when he rallied and after a short nap, which was advised by the doctor, went home. He is now around again, fiddle the worse for the shaking up but with a very sore back.

### A Wicked Beast.

What might have been a fatal attack occurred near Parham last week. A man working with the threshing machine of Messrs. Bradshaw & Cronk had a stallion which he used to move the machine from place to place. On Thursday last while he was taking him out of the stable, the animal, without any warning, caught him by the arm, threw him down and then got on top of the prostrate man with both knees with the evident intention of crushing the life out of him. This he would have succeeded in doing, but for the presence of mind of Mr. S. Cronk who seized a neck yoke and knocked the horse down, thus enabling the man to escape with his life. This is the second person this vicious animal has nearly made an end of.

### Rely on This.

GENTLEMEN.—We have six children, and we have relied on Dr. Fowler's Extract of Wild Strawberry for the past twelve years in all cases of diarrhea and summer complaints, and it never fails to cure.

MISS ANNA ALLAN, Harley, Ont.

### Boyle & Son

are now moving into their new store opposite the Brisco House, where they will be able to show the largest line of all styles of first quality cook and heating stoves ever shown in this town. Drop in and see their display next week and during the fair. Owing to the short space of time now allotted them they will not be able to make any display at the fair but will make an extra effort to more than do their part in their store.

### Cricket Match.

The cricket match between the Deseronto and Napanee teams last Saturday afternoon resulted in the defeat of the Napanee team by two wickets. It appeared a bowler's day as none of the crack bats of either team came off to any extent. It was anticipated that only an innings a side would be played as it was only an afternoon game but as it went there was ample time to play a two innings game. Napanee went first to the bat, and the men were given the turnabout in rapid order. Richardson, Leonard, Burrows and John Daly returning to the pavilion with ducks opposite their names, the only stand being made by Maybee and Merrett, but that was for a very short time. The innings only netted 25 runs, and everyone thought Deseronto had a sure cinch on the game in the 1st innings, but it was not to be so, as the whole of the cracks from the neighboring village were out for 2 runs less than the Napanee total. Napanee again appeared at the wickets but sad to say but too much the same as before, Richardson being the only one to do anything. The innings ended when 26 runs had been put together, about an innings for two good men. Deseronto faced the bowling of Burrows and Reines with a bid to win and in a very short time it looked as if they would be unequal to the task, as the wickets tumbled rapidly and it was not until Walker and Allum got together that things looked at all propitious for them, but by hard hanging by the former and steady play by Allum, they put things in a good shape so that when the conquering run was made 2 wickets were still to fall. The game was very exciting throughout and does not reflect on the batting powers of either team. It is to be hoped that another game will be arranged soon, when both teams will do more credit to themselves.

### A Fine Present.

Mr. Thos. Johnston, hardware merchant, has presented the Cathedral, Roblin's Hill, with a fine bell, a very acceptable present.

### Baptisms.

On Sunday last an interesting ceremony was performed in the English church, during the morning service, when the infant children of Mr. Thos. E. Anderson, Mr. C. E. Bartlett, and Rev. A. Jarvis were received into the church.

### County Show Dinner.

The ladies of the Guild of St. Mary Magdalene have undertaken to furnish dinner for the County Show to be held at the exhibition grounds on Monday and Tuesday, Sept. 19th and 20th. The dinner will be served on Tuesday, at 12.30 o'clock. Admission to dinner room, 25c. A lunch will be served at a counter adjacent, where a sandwich and a cup of tea or glass of lemonade may be had for 15c.

### Married in Toronto.

This week we were much surprised to learn of the marriage of Miss Levina Robinson, daughter of Mr. George Robinson, Mill street, to Mr. W. H. Markle, of London, Ont. The happy event took place in Toronto on Tuesday last, the young people being united by the Rev. Mr. Star, of that city. The many who used to frequent the corner grocery will miss the smiling face of Miss Robinson. We offer our heartiest congratulations.

### Killed While at Prayer.

A sad accident occurred Tuesday night last week, during a very heavy thunder storm. John Kearney, a well-to-do farmer, whose farm is a couple of miles south of Hastings, in Percy, was struck by lightning and killed. Mr. Kearney and his family were kneeling at their evening prayers when the crash came. The electric fluid came in through an open window upstairs, passed down through the floor, and struck Mr. Kearney who was kneeling below. The shock extinguished the light, and by the next flash Mrs. Kearney saw her husband lying dead across the chair at which he was kneeling. The lightning did not leave the slightest mark on its victim, and, with the exception of a slight crack in the floor, there is no trace of the dread visitor. Mr. Kearney leaves a wife and three children to mourn his sudden demise.—Picton Times.

—The farmers along Hay Bay are said to have shot all the ducks in that vicinity before the first of September. They were also aided by American and Toronto visitors. The game inspectors are very frequently asleep in the bay district. The more the pity.—Tribune.
